# HURGHADA MUSEUM PRESENTATION

Beauty Across Egyptian History

# HURGHADA MUSEUM ▶ ▶ ▶

Hurghada Museum is the first Product of a partnership between the Ministry of Tourism and Antiquities and the Private sector .this Partnership has resulted in the first antiquities museum in the Red Sea Governorate. It is located south of Hurghada near the tourist's Promenade and Hurghada International Airport. The museum is built upon a twelve thousand square meters Land three thousand of which are dedicated to museum's building.

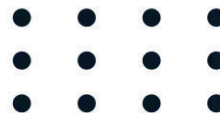

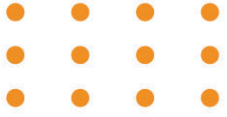

# The Museum's Message

---

The Museum endeavours to emphasize beauty across different historical periods in Egyptian history. It will present this theme to visitors in an appropriate manner through the means of an attractive museum scenario. For this, the museum displays a collection of the rarest and most valuable historical objects, so as to best represent Egyptian art through the ages, from the Pre-Dynastic period and up until the modern age.

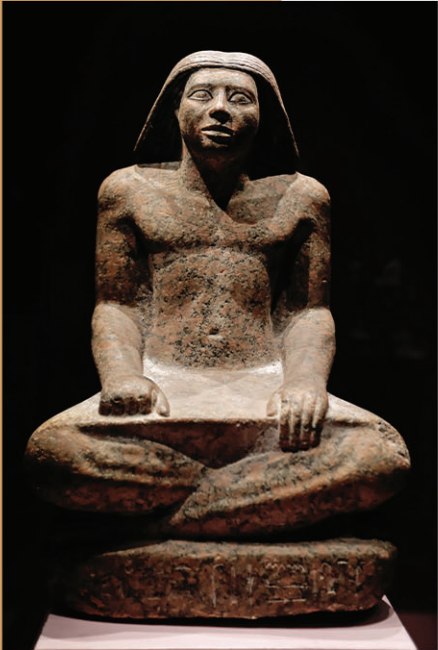

# MISSION

---

The museum's themes are as diverse as the manifestations of beauty in Egyptian history. The Egyptian artists brought out the beauty highlighted in their environment and culture in accordance with their artistic vision. This vision was manifested in art works characterized by variety and unique harmony. The themes include a presentation of the tools used in daily life, such as hunting tools, and kitchen utensils. This passion for beauty extended to artistic description of the afterlife; they were very concerned with all that related to life after death. Thus, they excelled at making refined funerary furniture, coffin decorations, and mummy adornments in the most meticulous manner. This artistic production was unparalleled.
